

REARRANGE CHILDREN

Children are not always listed in order of birth in your PAF file. This guide will help you put the children in birth order. You will need to have your family history (PAF) file open.

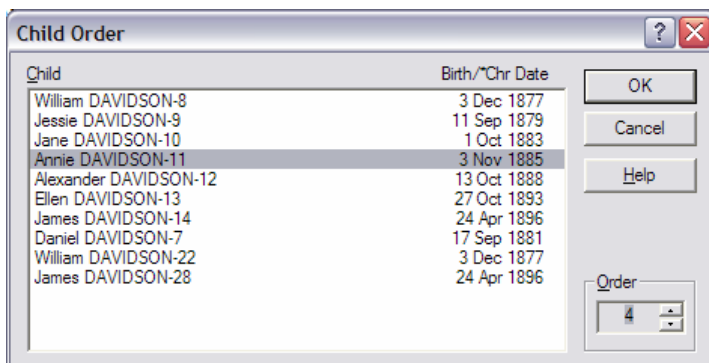

Steps to rearrange the order of the children

Order Children

1. Select the family where children are out of birth order.
2. From the menu select “Edit” then “Order Children”

3. PAF displays the Child Order window.

4. Highlight a child who is out of birth order (single click).
5. Use the up and down arrows in the “Order” box in the lower right portion of the window to adjust the birth-position of the highlighted child.
6. Repeat for until each child is in the proper birth-order.
7. Click OK
